Section III

1. The test below gives the admission figures in a university, consisting of Arts and Science Faculties only, during the years 1986, 1987 and 1988: The total number of students in 1986 was 6500. It increased by 8% in 1987 and further increased by 10% in 1988. The number of female students was 1000 in 1986, it increased by 12% in 1987 and further increased by 10% in 1988. Among the female students, the number of Science students was 325, 396 and 473 in 1986, 1987 and 1988 respectively. Among the male students, the number of Arts students was 4805, 5030 and 5362 respectively, in the three years. Present the information in a tabular form. Also calculate the percentage increase of male students in 1988 as compared to 1986 (12).

2. Answer the following questions

    a. Draw a pie diagram to show the population figures of different regions of world in the year 1968 (State the relative percentage population figures and the corresponding angles).

Regions	Asia	America	Europe	Africa	USSR	Oceania
Population in lakhs	Population 4890	Population 4550	Population 3360	Population 2390	Population 350	Population 8

    Total Population 19460

    b. Examine the correctness of the following report about the likings of consumers for two products A and B: 50% liked both A and B, 35% liked A but not B, and 25% liked B but not A, 4

3. Answer the following questions

    a. Mention, in each case, the most appropriate diagram to represent the following data:

        i. The population figures of a state at different census.

        ii. The number of educational institutions for men and for women in India in ten different years

        iii. The percentage of national income from various sources in a country during a certain year

        iv. The number of car accidents in a road during each of last fifty days (6)

    b. The following table shows the distribution of monthly income for 580 persons:

Monthly income (in Rs.)	Less than 1000	Less than 1500	Less than 2000	Less than 2500	Less than 3000	Less than 3500	Less than 4000	Less than 4500	Less than 5000
No. Of persons	Persons = 53	Persons = 133	Persons = 254	Persons = 394	Persons = 500	Persons = 542	Persons = 560	Persons = 571	Persons = 578

        i. Find: The percentage of persons having income between Rs. 1500 and Rs. 2500

        ii. Find: The percentage of persons having income between Rs. 3500 and Rs. 4500 (6)

4. Answer the following questions

    a. State whether the following statements are true or false. Give reasons for your answer.

        i. It is dangerous to lie in bed as about 90° Io of deaths so far occurred have been in bed.

        ii. Female workers in a factory are more punctual than male workers since percentage of female and male persons coming on time are 90% and 50% respectively.

        iii. Road conditions have not necessarily improved because the number of road accidents has diminished (6).

b. The mean age of 50 persons was found to be 32 years. Later it was detected that age 57 was misread as 27, age 60 was misread as 35 and age-28 was misread as 33. Find the corrected mean age (6).
